

NeoQ

Infant Nasal Mask

Developed to care and support his/her first breath.
The smallest patients often need the most care.
Safety and comfort are the most important to help babies with their earliest steps in life.

Entirely made of liquid soft silicone makes the cushion part perfectly fits the facial characteristics of the patient and ensures minimal pressure points.

The system is designed for baby from 3 to 12 kgs. It consists of a nasal mask, a 5-point headgear and a collapsible tubing.

The silicone mask is available in 4 sizes, and headgear in 2 sizes.
